

GOALS AND OBJECTIVES OF THE LIBRARY

The goals of the library are:

1. To provide organized collections of print and non-print resources which will meet institutional and instructional requirements as well as the individual needs of students;
2. To create an environment in which resources are made readily accessible, not only through the provision of appropriate facilities, furnishings, equipment, and supplies, but particularly through the provision of adequate staff; and
3. To facilitate learning and community services by providing services, resources and facilities which encourage and stimulate individualized instruction, independent study and effective use of resources by students, faculty and the community.

General Objectives:

The library aims to assist the administration in the promotion of all programs of the institution.

Specific Objectives:

1. To acquire books and other materials that will support and meet the needs, abilities and interest of students.
2. To develop in the students and resourcefulness in the use of books and libraries and encourage the habit of personal investigation.
3. To furnish the library with updated journals and basic reference materials needed.
4. To satisfy the needs and demands of the users by implementing certain library standards in the area of library service.
